## QUALITY PLUS

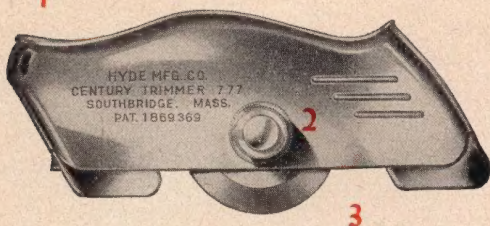

HYDE, the name that stands for *Quality* in painters and paperhangers tools. The Hyde Manufacturing Company are *actual manufacturers* of their line of tools and, therefore, can better maintain quality standards.

Offices in Boston, New York, Chicago, Atlanta, Los Angeles and Portland, Oregon.

**HYDE** MANUFACTURING COMPANY.

# CENTURY TRIMMERS

HYDE

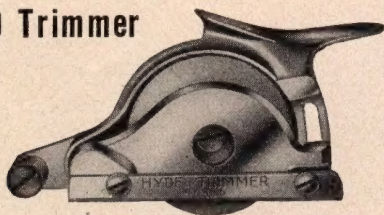

No. 777 CENTURY TRIMMER — Light weight. Individually heat treated blade to assure long life. Patented balance arm control prevents wobble and side play. Finger tip control for easy blade adjustment. Single piston action assures ease of operation.

## *Features:*

1. Shaped to fit the palm of the hand
2. Finger tip blade adjustment
3. Individually heat treated blades

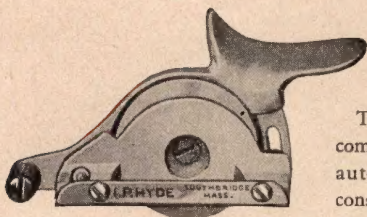

## No. 1000 Trimmer

Modeled to fit the hand. Light in weight and featuring the famous finger tip control blade adjustment, same as the Century. This is an excellent standard size trimmer. Uses standard blade.

## No. 10 Trimmer

This is a small compact unit. It has automatic spring construction which keeps the blade

against the track at all times. Standard heat treated blade is used.

## No. 15 Trimmer

Designed exclusively for household use. For the amateur this trimmer will cut well and give good results. Uses heat treated blade.

## TRIMMER OUTFITS

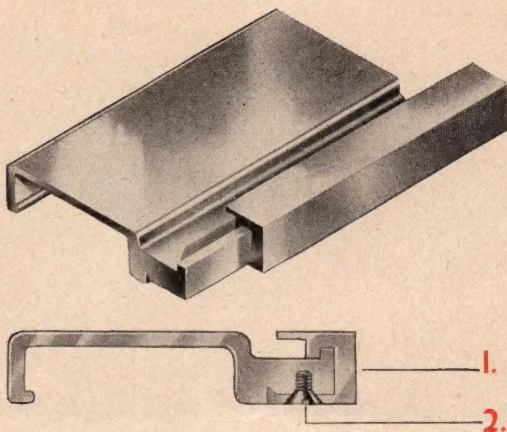

No. 777 1S—6 FOOT OUTFIT

No. 777 1S—7 FOOT OUTFIT

Consists of 777 Century Trimmer, No. 1S-6 foot or No. 1S-7 foot steel bound straightedge and 6' x 3" or 7' x 3" zinc strip.

# CENTURY extruded STRAIGHTEDGE

HYDE

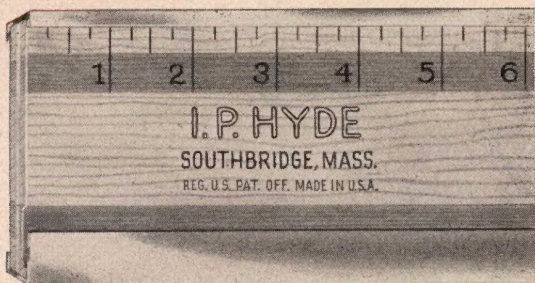

Made from special aluminum alloy. This Extruded Straightedge gives the decorator a new standard for accuracy and precision. The metal in its manufacture assures accuracy. The interchangeable track feature enables the decorator to insert a new track should it become worn or damaged from constant use. The economy of this feature will appeal to paper hangers because he can replace the track for a nominal sum and always have an accurate straightedge. Will be available in two sizes: No. 900—6 foot, No. 900—7 foot.

## *Features:*

1. Interchangeable track
2. Simple screw adjustment

# HYDE No. 1S STRAIGHTEDGE

This straightedge is made from selected lumber thoroughly seasoned. Five piece lamination assures straightness.

For the duration a strong steel channel is used which is plated to resist rust. It is attached by Phillips head screws assuring flatness. Sizes—

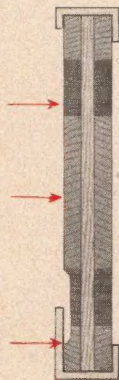

No. 1S—6 foot

No. 1S—7 foot

1. Lumber carefully selected and thoroughly seasoned.

2. Five piece lamination assures straightness.

3. Accurate steel channels, rust resisting plate.

## No. 5 STRAIGHTEDGE

HYDE

No. 5 STRAIGHTEDGE is steel bound of rust resisting metal and a three piece laminated straightedge made from carefully selected seasoned lumber.

No. 5—6 foot

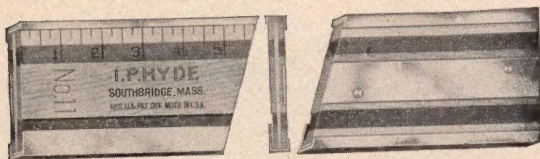

No. 5—7 foot

## Z INC STRIPS and PLATES

Strips—.020" thick, 3" x 6', 3" x 7'

Plates—Approximately .065" thick, 3" x 6', 3" x 7'

## No. 11S STRAIGHTEDGE

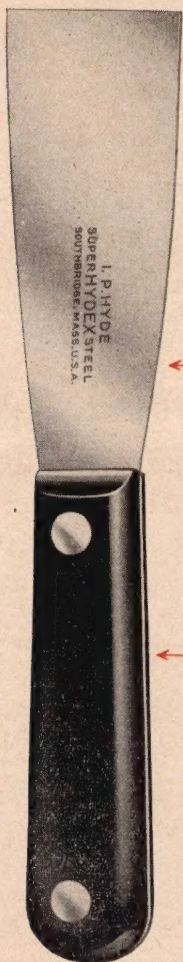

No. 11S STRAIGHTEDGE — This straightedge has the same features as the No. 1S plus a countersunk steel center strip  $1\frac{1}{4}$ " wide by  $\frac{1}{16}$ " thick for the full length.

No. 11S—6 foot

No. 11S—7 foot

# BLACK and SILVER LINE

This line combines Super HYDEX Steel blade with the non-bolster Hydite plastic handle. It has quality and beauty at a moderate price.

## BLADE

Super HYDEX Steel insures toughness. All blades are individually hardened and electrically tempered for uniformity. Each blade is ground to the proper flexibility or stiffness. High finish retards rusting and makes for easy cleaning.

## HANDLE

Modern HYDITE plastic handles are used in this non-bolster construction line. Light in weight and practically unbreakable. HYDITE handles do not shrink. Securely riveted with tubular steel rivets.

## PACKAGING

The Black and Silver line is packed in the distinctive black box with the silver bands.

# BLACK and SILVER LINE

HYDE

# NEW SPEEDSTER SCRAPER

Patent applied for

HYDE

This new HYDE SPEEDSTER is designed to save time. No tools required for blade changes—a simple quarter turn of the cam blade lock and out comes the blade.

Handle is made of selected hardwood and shaped to assure a good solid two-fisted grip. Blade is made of high carbon steel and carefully ground. Will be available in two sizes. No. 75—2  $\frac{7}{16}$  inches wide, No. 50—1  $\frac{3}{4}$  inches wide.

# HYDITE SEAM ROLLERS

HYDITE Plastic Seam Rollers are more durable and do not chip. They are solid and have ivory white color. Easy to clean, they produce smoother seams and the grooved rolls are designed to eliminate "flash". Sturdy frames are highly nickeled and securely assembled to the distinctive HYDE "Black and Silver" handle.

No. 210 Hydite Seam Roller, 1 inch wide.

Oval grooved  
Flat grooved

Oval smooth  
Flat smooth

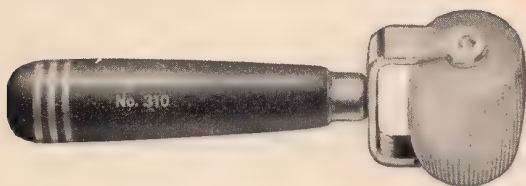

No. 215 Hydite Seam Roller, 1 inch wide.

Bevel grooved

Flat smooth

## HYDE MAPLE SEAM ROLLERS

HYDE Maple Seam Rollers are made from hard rock maple that is carefully turned and hand polished. An excellent roller for regular work.

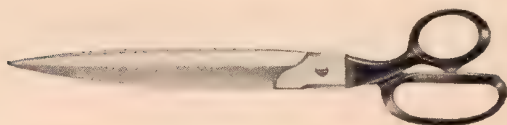

No. 300 1 inch, oval or flat face as specified.

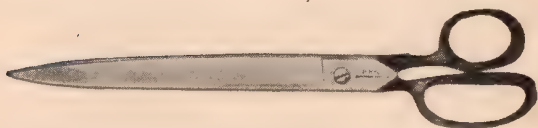

No. 700 2 inch, oval or flat face as specified.

No. 50 Forged steel blade, straight Japanned handle.  
Size 12 inches. Packed  $\frac{1}{2}$  dozen per box.

No. XX Narrow Spring Steel Blade. Straight Japanned handle. Size 12 inches. Packed  $\frac{1}{2}$  dozen per box.

No. 213 Cast Iron Shear. Straight Japanned handle.  
Nickel plated blade. Size 12 inches. Packed  $\frac{1}{2}$  dozen per box.

# PALETTE KNIVES

HYDE

These blades have special flexible temper and are individually ground for artists' requirements.

No. 02 Artists' Palette Knife, 3 inches only. Black rubberoid handle, riveted. Packed 1 dozen to box.

No. 03 Trowel shaped palette knife, 3 inches only. Black rubberoid handle. Packed one dozen to box.

## SPATULAS

No. 600 Rosewood handle, 3 steel tubular rivets. These spatulas are made from our Hydrex steel which is tempered to give a good spring. The individual grind gives the correct flexibility for mixing paints. Sizes 3", 4", 6", 8", 10" and 12". Packed one dozen to box.

The HYDE CENTURY Super Kerosene Wallpaper Remover is a regular two-fisted, two-man unit. No job too difficult, no paper too fine.

**VOLUME OF STEAM IS THE ANSWER!** There is no substitute for steam. The remover operates at only half its capacity for ordinary work. The extra power is always there when needed for tough jobs.

**KEROSENE MEANS SAFETY, ECONOMY, SIMPLICITY. NO MOVING PARTS.** This machine complies with all known Federal, State and local safety laws.

**RESULT**—an invaluable aid in preparing walls cleanly, thoroughly, and quickly for finer work which naturally leads to more and larger orders for you. Will be available soon.

# WALLPAPER REMOVER

HYDE

VOLUME of STEAM produced enables two men to operate if desired.

CONTROL of the steam means that just enough steam can be used as the operator requires.

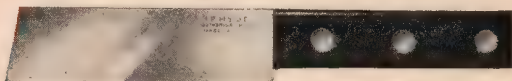

SPECIFICATIONS: Boiler holds six gallons of water; fuel tank three gallons of kerosene; twenty feet of steam hose; one large and one small concentrator. Shipping weight 85 pounds.

## PERFORMANCE TESTS

Fuel Tank Pressure	Kerosene Consumption	Steam Pressure
15 pounds	4 hours per gallon	1½ pounds
20 "	3½ hours per gallon	3½ "
25 "	3¼ hours per gallon	3 "
30 "	2¾ hours per gallon	3½ "
35 "	2½ hours per gallon	4 "
40 "	2 hours per gallon	5 "

## HACKING KNIVES

This sturdy blade is for removing the most stubborn putty.

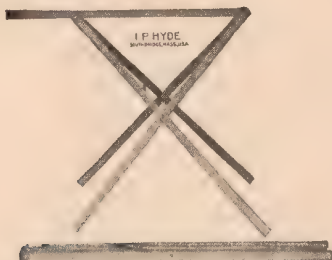

No. 16 Hacking Knife, heavy  $4\frac{1}{2}$  x  $1\frac{1}{4}$  inch blade. Three lock rivets. Leather handle. Packed one dozen per box.

## PAINTER'S TIME SAVER

No. 22 A practical tool to prevent paint from being smeared on wallpaper, glass or woodwork.

## TRESTLES

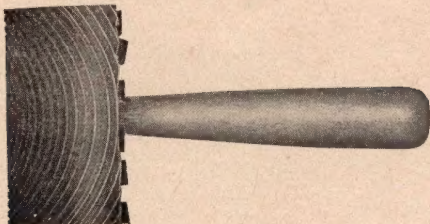

No. 15 Made of clear maple. Adjustable, 30 to 35 inches in height. Equipped with Straightedge rests that recess when folded. Kick-proof construction. Packed 1 dozen pairs to a carton.

## GRAINING TOOL

HYDE

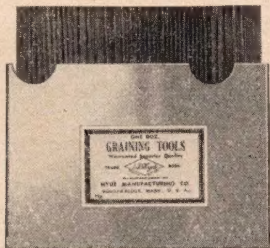

No. 68 Combination grainer. Felt cushions, fine corrugations. Rubber with wood handle.

## GRAINING COMBS

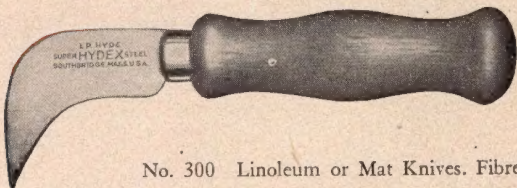

No. 3 Rubber comb with three size teeth—fine, medium and coarse, set in one handle for convenient use. Size 3 inches per side.

No. 21 Made of best English blue steel. Packed in divided tin cases, 12 combs to a set, assorted sizes, equal to 30 inches.

# LINOLEUM or MAT KNIVES

No. 300 Linoleum or Mat Knives. Fibre Finish Handle, Riveted. Blade size 2½ inches, long point.

## FOLDING BUCKET STAND

No. 66 Reinforced metal folding bucket stand, inexpensive and easily adjusted. Made from plated steel.

## STEEL WIRE BRUSHES

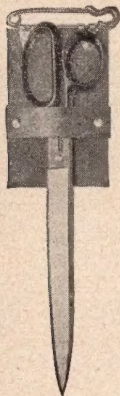

No. 221 Excellent brush for cleaning grooves and mouldings.

No. 07 Straight back for cleaning and removing blisters on outside work before painting.

## SHEAR HOLDER

HYDE

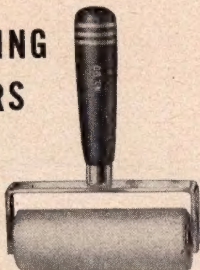

No. 200 Heavy Sole Leather. Safety pin attachment on two metal hinges. Loop for shear securely riveted. Size  $5\frac{1}{8}$  x  $3\frac{3}{8}$  inches.

## SMOOTHING ROLLERS

Heavily padded with flannel and covered with cambric, which can be replaced.

No. 900 9 inches long  
No. 90 5 inches long  
No. 9 2 inches long

## CRACK REPAIR TOOL

No. 1 Crack Repair Tool, Crack cleaner has strong steel point. Black and Silver Handle, riveted.

## PLASTER PATCHER
